Why choose the CDE as your clinical trial partner?

Credibility

The CDE is run by multi-specialist clinicians and Key Opinion Leaders

The CDE is accredited with the Council for Medical Schemes as a Managed Care Organisation for Active Disease Risk Management Services in

Cardiovascular

Diabetes

Dyslipidaemia

Hypertension

Chronic renal
disease

Mental Health

Clinical trial centre of Excellence and network hub

Key principal investigators and sub-investigators at each site are available

The CDE Head Office is a flagship clinical trial centre and serves as the main hub, feeding and supporting smaller clinical trial centres throughout the national network.

Gravitas

Full team GCP certified staff including; clinical trial technicians, administrators, project managers, recruitments specialists, monitors (roaming and stationary), coordinators and intelligent systems supporting all functions and complying with regulatory and administrative requirements

Completed trials in various therapeutic areas, to name a few; Diabetes, CVD, gout, lipidemia, chronic kidney disease, neuropathy and ophthalmology.

Recognised internationally as a bespoke site of Excellence working with universities in South Africa (both public and private sectors).

Low-risk

The CDE has a fully developed Pharmacovigilance Department set up to comply with your Patient Safety and Regulatory Departments.

Fully compliant setup to ensure all compliance and governance needs are met.

What will we do for you?
